LIQUOR LOUNGE
TABLE FULL OF SPIRITS

LIQUOR LOUNGE

Please read these operating instructions carefully before commissioning the device. Always keep the operating instructions within reach of the appliance. If you pass on the spirit table, please also pass on the operating instructions. If the appliance is damaged during transportation, do not connect it but have it checked by a specialist.

Intended use

The table is only suitable for indoor use. The table is not designed for outdoor use and must be protected against moisture, wind and humidity. If you store or use the table in damp rooms such as a cellar, please ensure that the room humidity does not exceed 65-75% Rh (relative humidity) and that the temperature does not fall below or exceed minus 10°/plus 60° C. Otherwise, Liquor Lounge will not be liable for any damage to the device. Otherwise, Liquor Lounge will not be liable for any damage to the device.

SAFETY INSTRUCTIONS

WARNING - Incorrect installations are dangerous!

1. Only connect the table to a properly installed socket with earthing and a power supply of 230V ~ 50Hz.
   Please always use the mains connection cable supplied with the table.
   When setting up the table, ensure that the mains connection cable is not pinched, kinked or damaged.

2. If possible, do not use an extension cable.
   The table must not be operated via an external switching device such as a timer or remote control.

3. Disconnect the mains plug from the socket before repositioning the table.

LIQUOR LOUNGE
TABLE FULL OF SPIRITS

4. use the table only for the purposes specified in these operating instructions.

5. Never use the table to lift or place objects or people underneath it.

6. Avoid blocking the opening (2) from which the bottle comes or covering it with an object.

7. Lower the bottle or the respective position again before pulling out the mains plug. Only pull the mains plug to disconnect the cable from the socket.

8. In the event of faults or damage to the table (e.g. liquid entering the appliance) or power cable, pull out the mains plug and contact Technical Support! Never operate a damaged table.
   Only trained specialists may carry out repairs on the table!
   Only original spare parts may be used to repair the appliance!

9. In the event of malfunctions, please contact Liquor Lounge Technical Support tech-support@liquor-lounge.at
   Improper repairs are dangerous!

10. Clean the table only with a slightly damp cloth and avoid water ingress in the display area and in the shaft opening.

11. Only use the table indoors and never expose the table to dripping or splashing water.

12. Never use the table on damp surfaces or in damp rooms to avoid damaging the real wood or the electronics.

13. Opening the table (removal of the table top or the body) is strictly prohibited for safety reasons! The table may only be opened by qualified personnel from Liquor Lounge!!

14. Never allow children or persons with reduced physical, sensory or mental abilities to use the table unsupervised.

15. Ensure that the lock function is activated when leaving the table. This prevents unauthorized access to the spirits (or other contents) inside the table.

16. The chute opening moves when the chute is opened and closed, therefore keep fingers and/or other parts of the body away when opening and closing the chute. **CAUTION Risk of injury!**

FUNCTIONS

1) Power cable

The power cable is supplied with the table and is connected by Liquor Lounge staff during commissioning.
After you have repositioned the table, only connect it to a properly installed socket with earthing and a power supply of 230V - 50Hz.

   a) Switching on / off
   The table is supplied with power by plugging in the mains cable.
   This **cannot be controlled via a switch**, only by plugging the power cable in and out.

2) Filling

   a) Select the position to be filled on the display.
   b) The bottle lift then moves upwards and is ready for filling. Fill the bottle lift with the desired bottle. You can now assign a name to the filled position via "Settings".

LIQUOR LOUNGE
TABLE FULL OF SPIRITS

c) Then press the "Gate" icon to lower the bottle lift to the starting position.

Make sure that the bottle is positioned correctly before pressing the "Gate" icon. The maximum dimensions of the bottles are:

<u>120 mm diameter</u> and <u>270 mm height</u> and must not be exceeded.
Please use the supplied bottle gauge for testing

<u>Improper filling of the table can lead to damage!!</u>

3) Cleaning

Take care not to clean the table when it is too wet. The tabletop can be wiped with a slightly damp cloth.

Important: Avoid getting water or other liquids into the shaft opening or the display, as this can damage the mechanics and electronics.

4) Installation location

Important notes on the installation location:

To ensure the longevity and optimum function of your table, please note the following:

The table is intended for indoor use and dry areas only. Installation outdoors or in damp environments can lead to damage to the mechanics, electronics and wood. Liquor Lounge accepts no liability for this.

Important information for repositioning:

1. All bottles must be removed from the table, including the bottle holder.
2. The table must not be lifted using only the tabletop, as this could damage the tabletop holder. If you are unsure, please contact Technical Support.
3. After repositioning and inserting the bottle holders, ensure that they have been inserted without force and contact with the shaft opening.

Make sure that the table is set up horizontally.
This is the only way for the mechanism to function properly. Use the adjustable feet to level the table if necessary. (On initial delivery, the table is set up and aligned by Liquor Lounge staff).

MISUSE

<u>CAUTION: Failure to observe this may result in damage to the table!</u>

Liquor Loung accepts no liability for damage if the table is used incorrectly, i.e. in cases of misuse.

The following points fall under abuse:

- Placing objects on the closed shaft opening.
  Objects placed on the shaft can block the shaft or damage the shaft opening.

- Only use the storage positions for the above-mentioned bottle size or the Liquor Lounge bottles included in the scope of delivery. The storage of other items can lead to damage and should be clarified in advance with our technical support team.

- The bottle size with which the table may be filled is set at a **diameter of 120 mm and a height of 270 mm**. The use of larger bottles can damage the mechanism or impair its functionality. Use our supplied bottle gauge to check suitable bottles

- Do not store any <u>unsealed bottles</u> in the table. Make sure that all bottles are properly closed before storage to prevent liquids from leaking.

- To prevent damage to the table or the bottles, the table must not be moved, tilted or shifted while bottles are stored inside!
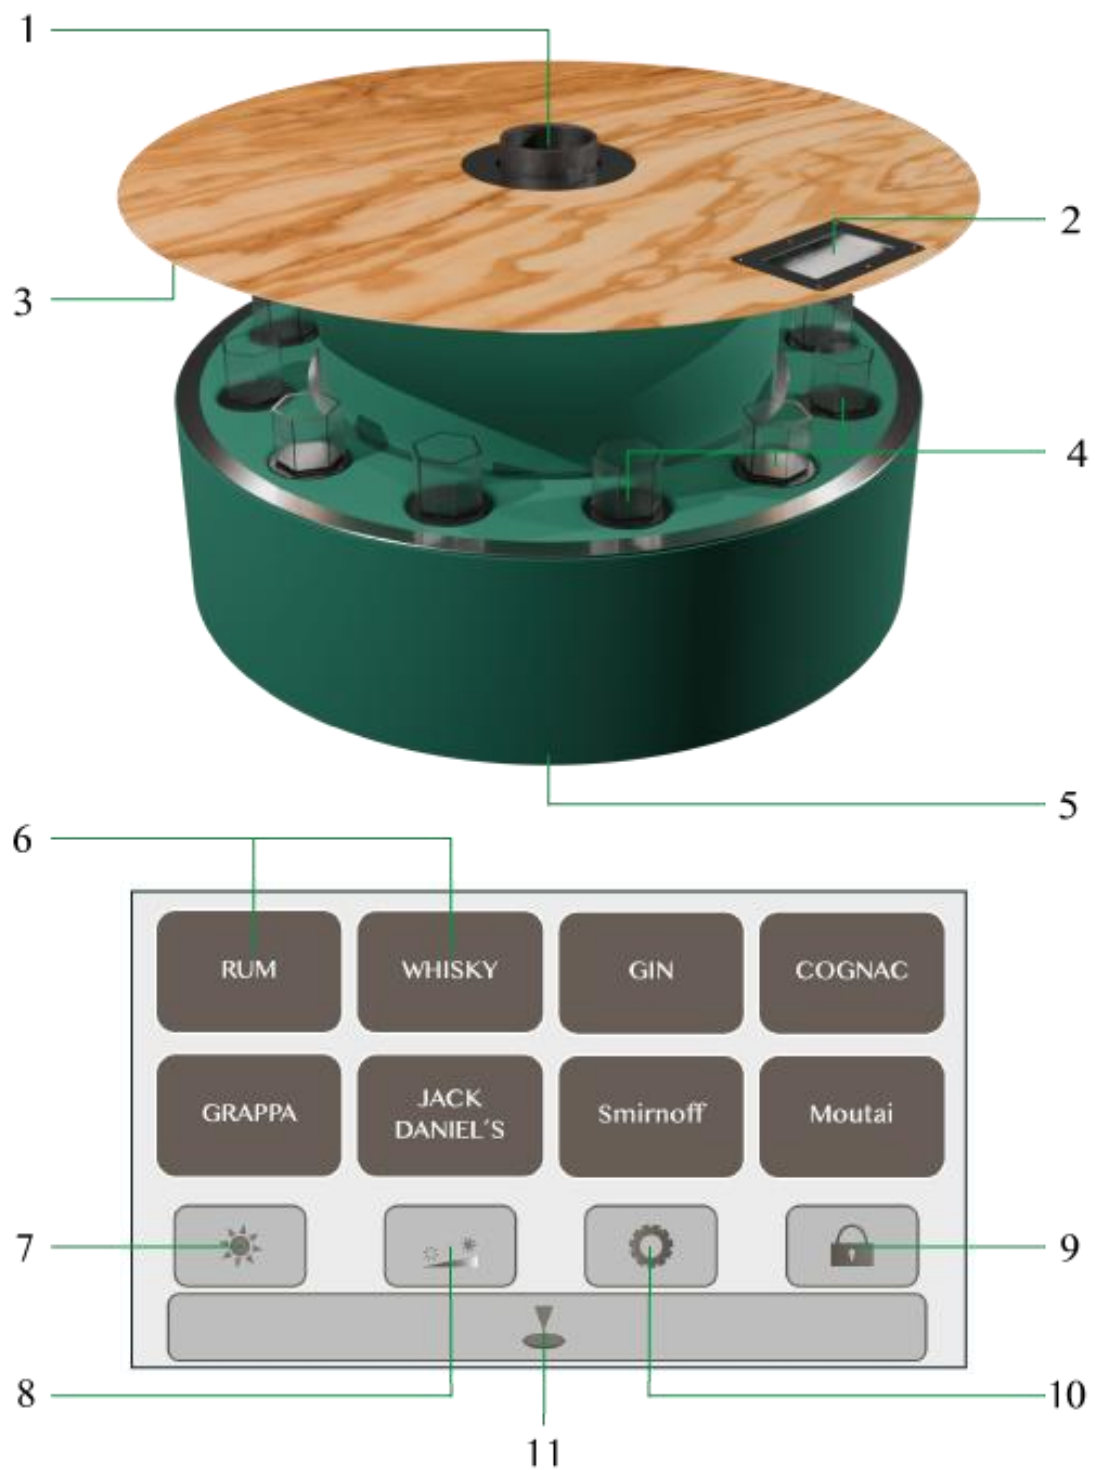

LIQUOR LOUNGE
TABLE FULL OF SPIRITS

- The table is designed exclusively for the consumption and storage of spirits. Do not place any heavy objects (more than 15 kg in total) on the table. Do not climb onto the table and do not sit or lie on it.

- External influences:
  Direct sunlight could cause the spirits inside to heat up.

- Unauthorized repairs:
  Do not attempt to repair the table yourself! If a defect occurs, please contact the Liquor Lounge customer service: tech-support@liquor-lounge.at

- Improper handling of the lift system:
  If the lift is blocked or in an end position, do not attempt to move it by force. This could damage the lift system. Instead, press the "Gate" icon or the reset button to release the blockage. If the lift still does not move after this, please contact Liquor Lounge customer service..

- Damage to the surface:
  Do not use any sharp objects that could scratch the surface of the table.

- Hot objects:
  Do not place hot objects directly on the table surface. Use coasters to avoid heat damage.

- Chemicals:
  Avoid contact of the table surface with aggressive chemicals and cleaning agents.

- Improper cleaning:
  Do not use abrasive or aggressive cleaning agents that could damage the surface of the table. Only use a cloth slightly dampened in water to clean the table. Make sure that the cloth is not too wet to avoid damaging the table.

The shaft opening (2) moves when the shaft is opened and closed, therefore keep fingers and/or other parts of the body away when opening and closing the shaft. **CAUTION Risk of injury!**
Do not insert any other objects into the shaft opening.

OPERATING ELEMENT

1- Shaft opening
2- Display
3- Ambient lighting
4- Glass storage spaces

5- Power cable
6- Positions 1-8
7- Lights ON/OFF
8- Color settings

9- Lock icon
10- Config. Settings
11- Gate Icon

OPERATION LIQUOR LOUNGE

Welcome to the "Liquor Lounge" user interface! This application allows you to control various functions, including the LED ambient lighting, brightness adjustment, color settings, position input, gate control.

With this user-friendly interface, you can easily customize and control your settings. Here is a step-by-step guide on how to use the various functions

1. Starting the application
   - When you start up the table, you will find yourself on the home screen. This is the starting point for all other operating functions that you can control via the display. You can open the sub-functions via the home screen.

2. Control the positions
   - There are a total of 8 positions that you can control individually. Each position can be selected with an icon on the main interface.

   - Select position:

     Click on one of the position icons (position 1 to 8) to activate the desired position.

   - Function:

     After pressing the icon, the corresponding position is activated. The bottle lift moves upwards to its open position. You can then fill the bottle lift with the desired bottle.

LIQUOR LOUNGE
TABLE FULL OF SPIRITS

3. Gate control

- The gate icon allows you to close the shaft opening. Press it after you have correctly filled the bottle lift with the desired bottle. The bottle lift will then move downwards.

4. Config. Settings (configuration mode):

- The Position Config mode allows you to customize the positions. Click on the Config mode icon to access the configuration mode.

In this mode you are able to rename the positions:

- Select one of the eight items by clicking on it and name it as you wish. This is particularly helpful if you want to assign specific names to the items to make them easier to find again.

Reset Icon   Return Icon

The reset icon has the function of resetting the device to its initial position in the event of an electronic error.
If the bottle does not appear correctly at the
lift opening when moving it, please press the RESET icon.

5.a. Control of the ambient lighting

- The ambient lighting is controlled via a special icon that is used to switch the light on or off.

- Activate/deactivate ambient lighting:

- Click on the "Lighting" icon to activate or deactivate the ambient light.
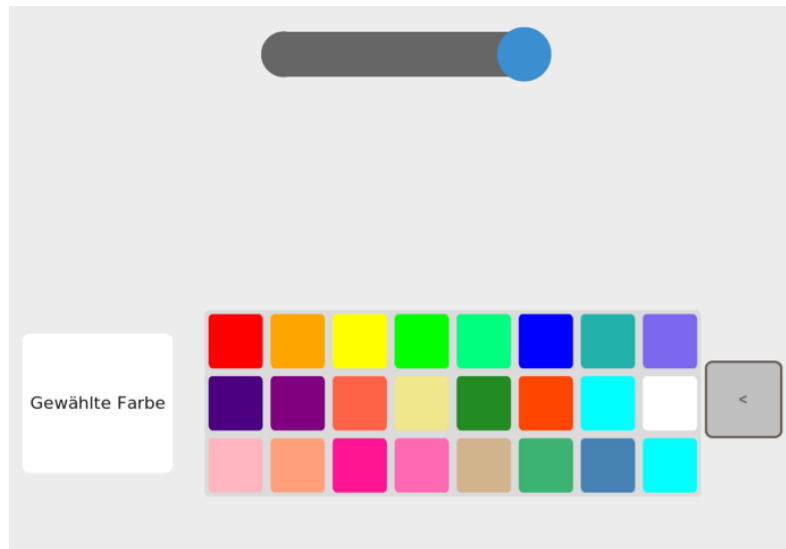

5.b. LED-control system (brightness and color)

- You can use the LED control "Icon" to adjust the brightness and color of the LEDs according to your wishes. To do this, click on the "Color settings" icon in the Home menu".

The LED control menu now opens, where you can make the following settings:

- Set brightness:
Use the slider to adjust the brightness of the LEDs.

- Choose color:
Click on the "Select color" icon to choose from a predefined color palette

(red, green, blue, yellow, purple, cyan). Select a color and the LEDs will be adjusted accordingly.

7. Screensaver

- - The application has an integrated screen saver that starts automatically after 5 minutes of inactivity. The table automatically goes into sleep mode after 15 minutes, whereby the screen goes dark (black).

Wake up:

A simple click on the screen deactivates the screen saver and the user interface is displayed again.

Background:

The screensaver displays the predefined background that is included in the basic scope (Liquor Lounge logo).

8. Locking system (Lock-System)

- The application contains a locking system that is activated via the lock icon.

Clicking on the "Lock" icon starts the lock system. This can then only be unlocked with the individually configured code.

Introduction

This section explains the functions and operation of your PIN entry system. The system allows you to enter and check a personal PIN, change the PIN and use a virtual numpad. The system is designed to lock itself automatically after power off or deliberate lock activation and only unlock again after a correct PIN has been entered.

Functions

1. Activate lock-mode
   - The system is automatically locked at startup.

   - - The system can also be locked manually at any time using the lock icon (lock symbol).

   - - During locking, no other function of the table is available until the correct PIN is entered.

2. PIN-entry

   - - After starting, you will be asked to enter your PIN.

   - - The PIN is displayed with an asterisk (*) during entry to protect the entry.

   - - A virtual numeric keypad with the digits 0-9 and icons for deleting and confirming make operation easier.

LIQUOR LOUNGE
TABLE FULL OF SPIRITS

3. Confirmation of your PIN

- -After entering the PIN, you can check it with the Confirm icon.

- If the PIN is correct, the screen is unlocked and the application is closed.

- If the PIN is incorrect, the entry is reset and you can try again.

4. Change PIN
- You can change the PIN by clicking on the Change PIN button.

- - The current PIN is requested first.

- Once you have entered the current PIN correctly, you can set a new PIN.

5. Safety feature
- To delete the current PIN entry and start again, use the "Delete" icon ".

- A minimum length of four digits is required for PIN entry.

PIN creation / modification instructions

1. Click on the Change PIN button.

2. Enter your current PIN.

3. After confirmation, you will be asked to enter a new PIN.

4. The new PIN will be activated.

Troubleshooting

Problem: The application does not accept my PIN.
- Make sure that the PIN has been entered correctly.

Problem: I have forgotten my PIN.
- Contact the Liquor Lounge support team
